

Scheme Management Report

WĀHANGA TUARIMA, MILESTONE 5
1 OCTOBER 2025 - 31 DECEMBER 2025

Tyrewise

Poipoia te kākano kia puāwai

Nurture the seed so it may blossom

Tyrewise nurtures the market for recycled rubber materials from tyres so that the circular economy for tyres can flourish.

This report from the scheme manager is for Milestone 5 of the Operational Delivery Plan and covers operational activities and results for the period 1 October to 31 December 2025.

Chair's report

Mark Gilbert

Independent Chair,
Auto Stewardship New Zealand

I'm pleased to share this update as we wrap up the fifth milestone of Tyrewise's first year in operation. Progress is going extremely well as this report outlines. This quarter has been steady and productive, with our systems bedding in well and the sector continuing to engage positively.

The waste-tracking and payments platforms are running smoothly, with improvements making life easier for users and giving us better visibility of tyre movements across the country.

Transport remained one of our biggest cost areas, with \$10.2 million paid to transporters this quarter, supporting the movement of more than 14,000 tonnes of end-of-life tyres to processors. Most transporter contracts were renegotiated in December as the result of a second tender round, setting clearer expectations and supporting consistent service nationwide.

We also saw strong momentum in market development and sector engagement.

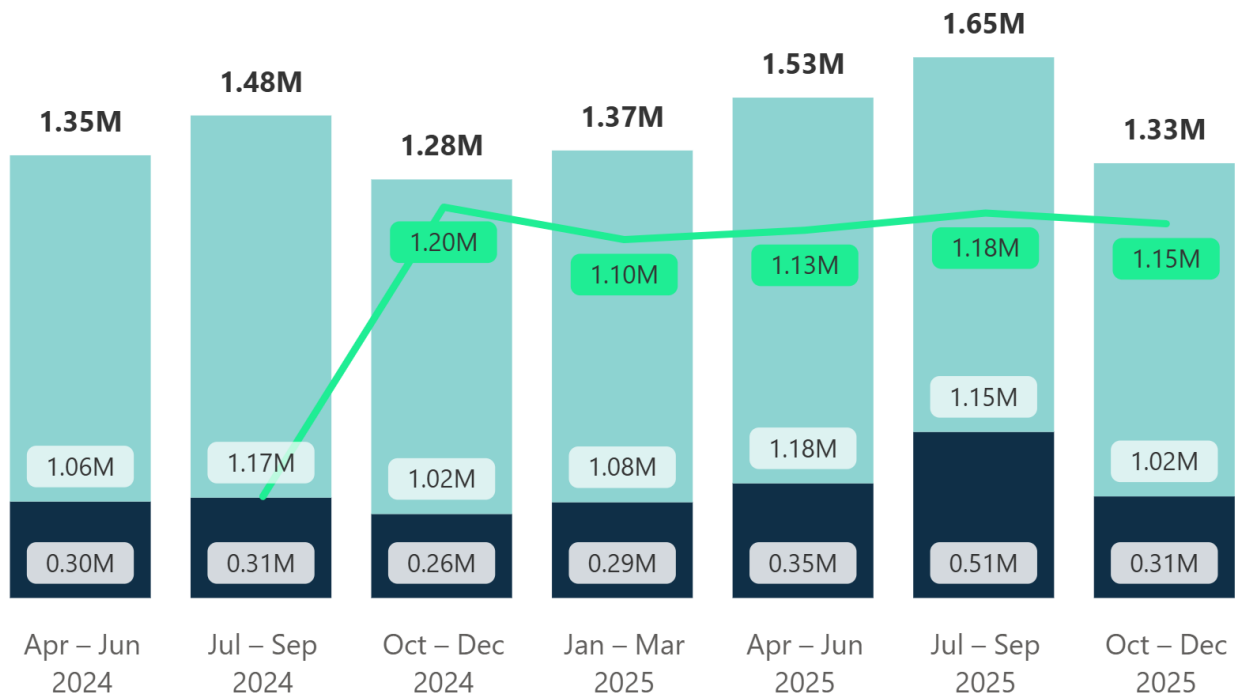

The 'Round Trip Summit' in Melbourne and the 'Future Roads Conference' in Hamilton were highlights, helping grow technical know-how and strengthening collaboration with our Australian counterparts and local roading partners with a clear call out on both sides of the Tasman Sea for more consideration for rubber in roading. Our new online Knowledge Hub on the Tyrewise website is now giving councils and industry a central place to access specs, research, and case studies.

Puna Taurima, the Tyrewise Fund, advanced to its first full application round, with 33 solid proposals received from 44 expressions of interest —far more interest than available funding with the fund significantly oversubscribed; however this is a very positive indicator showing real appetite for innovation and investment. On the ground, performance monitoring remains robust: over 1,100 site visits were carried out and only five complaints logged, reflecting a big step forward in compliance and confidence in the Scheme. Public engagement remained strong too, with successful awareness campaigns and excellent feedback from the take-back network.

As we closed out the year, Tyrewise is tracking well across its objectives and building the foundations for a reliable, nationally consistent stewardship system for waste regulated tyres. My thanks go to all our partners—participants, transporters, processors, the Scheme Manager and team, ASNZ governance, and the Ministry—for their continued collaboration, and huge efforts. We head into the new year with solid progress behind us and plenty of momentum for what comes next.

Tyre movements

TYRES ENTERING THE MARKET COMPARED TO TYRES COLLECTED

● Tyres entering NZ - on vehicles estimate ● Tyres entering NZ - loose ● Tyres collected

Data sources:

Loose tyres entering New Zealand: NZ Customs via Ministry for the Environment, from 1 March 2024.

Tyres entering New Zealand on road registered vehicles: NZTA Waka Kotahi via Ministry for the Environment, from 1 March 2024

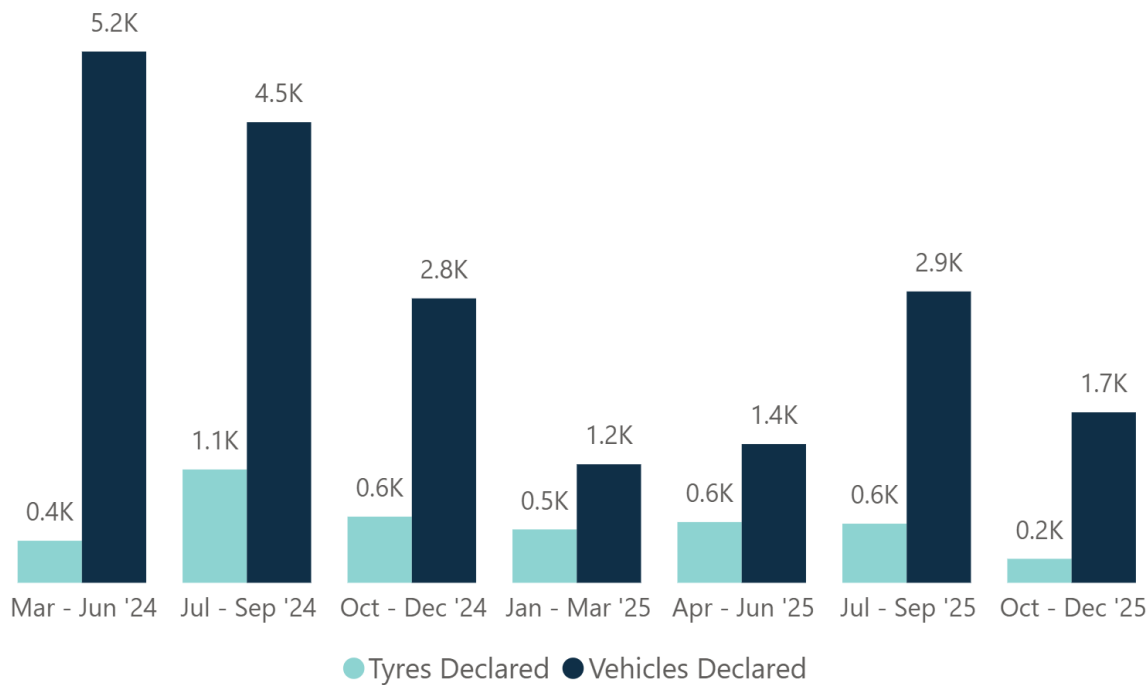

Collections: Tyrewise app, based on the tyre volumes reported at pickup, from 1 September 2024 when end-of-life tyre collections began.

Tyres entering NZ on road registered vehicles is an estimate, as the count of tyres is not recorded for all vehicle types.

SELF DECLARATIONS

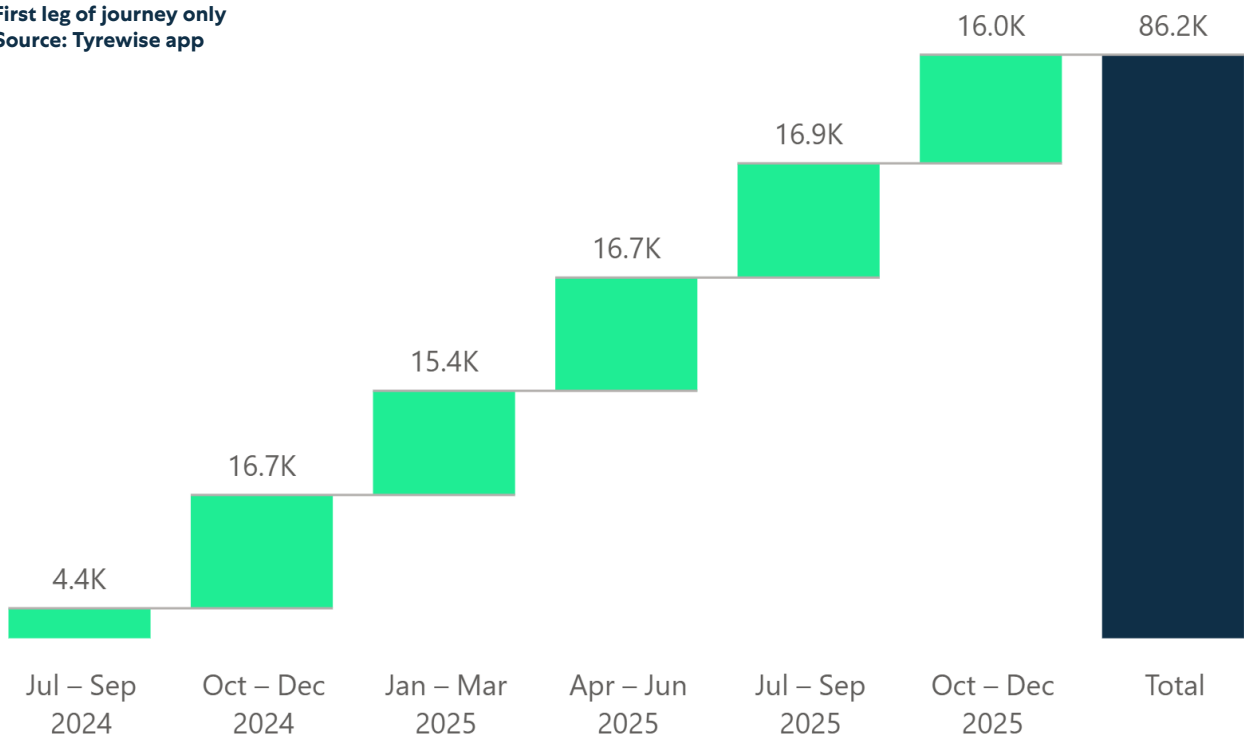

Number of tyres and vehicles self-declared on importation or sale into New Zealand. By quarter of import or sale
Source: Tyrewise Self-declaration form

Late self-declarations appear in the declaration period they relate to, not the period during which they were submitted.

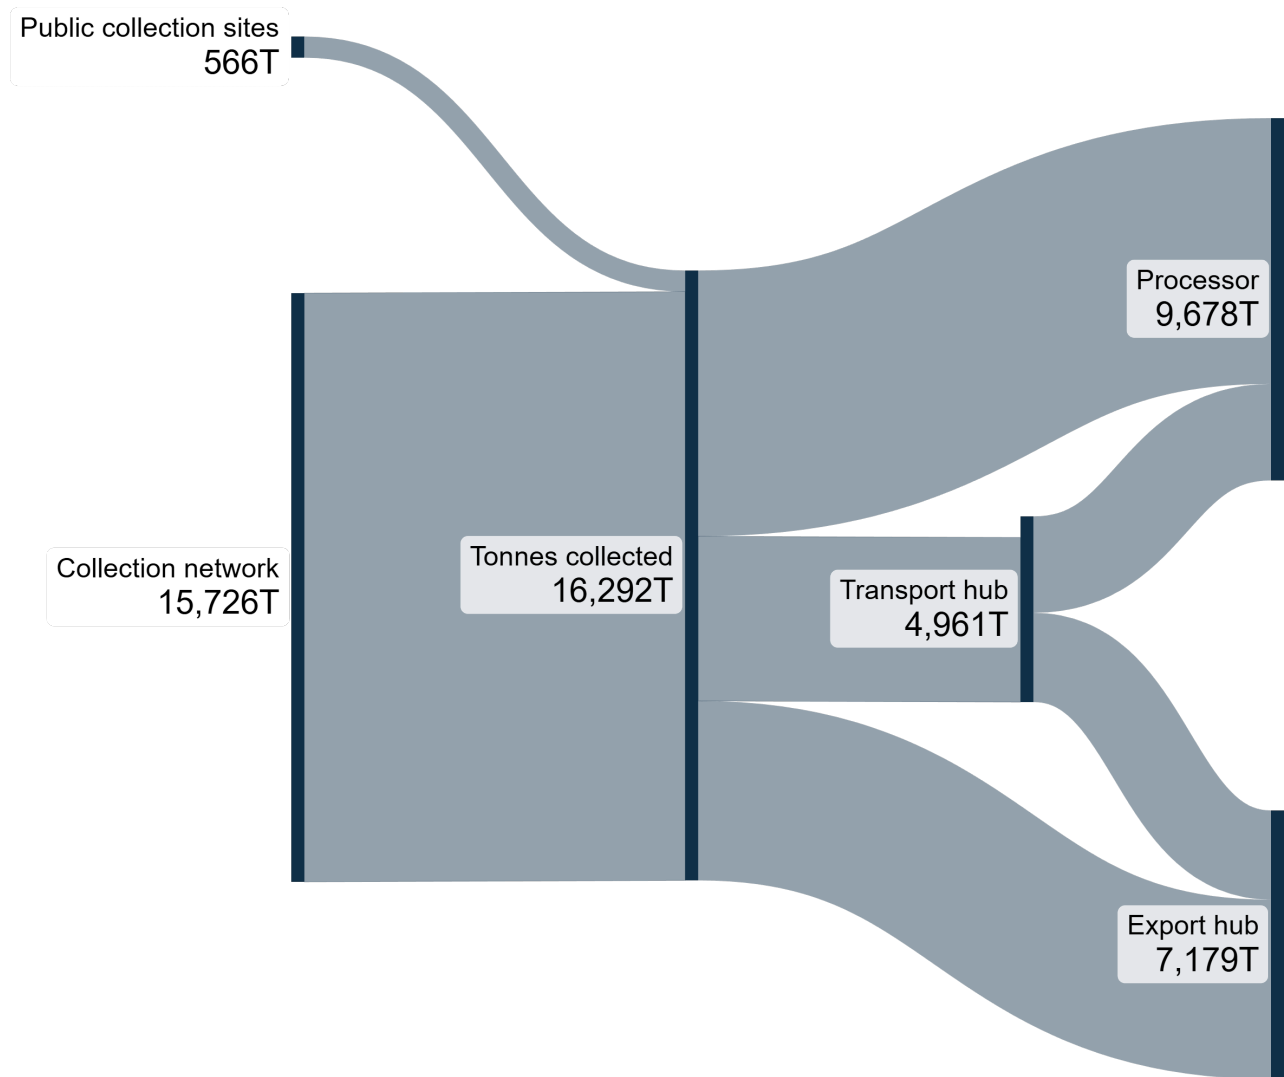

>OBJECTIVE 2(A), TRANSPORTATION VOLUMES TONNES OF TYRES COLLECTED

First leg of journey only

Tyrecycle NZ	Processor	Auckland
Waste Management Ltd	Processor	Auckland

Market development

>OBJECTIVE 4, OUTCOME 5: GRANT FUNDING

>OBJECTIVE 5, OUTCOME 6: MARKETING GROWTH AND INVESTMENT STRATEGY

Puna Taurima, the Tyrewise Fund

44 projects from the expressions of interest round held in the previous reporting period were invited to progress to a formal application. Applicants were given one month to make their submission, and we received 33 applications by the deadline.

Funding applied for was in excess of the amount currently available. Generally applications were of a high standard and larger projects may be able to be completed in stages based on future available funding.

Three members of the Tyrewise Scheme Manager independently screened and scored each application, and made joint recommendations to the Tyrewise Grants Committee, which met in early December. The committee reviewed the applications and submitted their final recommendations to the Auto Stewardship Board. The board made their decisions in late December. Notifications and funding agreements for signing will be prepared in the new year.

The Tyrewise Grants Committee

- Peter Holley (ASNZ Trustee)
- David Vinsen (ASNZ Trustee alternate)
- Samantha Sharif (ASNZ Trustee)
- David Tikao (Independent member)
- Ashleigh Gilmour (ASNZ Accountant)
- Supported by up to three representatives of the Tyrewise Scheme Manager

Stakeholder engagement

Two significant stakeholder engagement activities during the period were the inaugural Round Trip Summit held with Tyre Stewardship Australia, and attendance at Future Roads.

Round Trip Tyre and Conveyor Belt Recycling Summit

The Summit was an opportunity for registered partners and other stakeholders from Aotearoa New Zealand to share and learn with their Australian counterparts, as well as hear from international guest speakers.

A number of presenters and attendees had extensive experience in roading, a major focus for market development in Aotearoa New Zealand.

In a New Zealand focused roading workshop, invited participants heard presentations from NTRO, Mainroads Western Australia, California's CRM, and Australian roading contractors Colas and Fulton Hogan.

Participants then explored what is needed to advance New Zealand's uptake of rubberised roading in areas such as: market readiness, procurement drivers, supply chain opportunities, regulatory frameworks and research and development needs.

Future Roads Hamilton

The Future Roads conference was a chance for the Tyrewise team to directly engage with procurement and technical specialists and roading contractors to understand their needs for realising the benefits of recycled rubber in New Zealand roads.

On the second day of the conference we held a round table to explore some of the same themes as the roading workshop at the Round Trip Summit.

Knowledge hub

We have published a resource page for rubber in roading on the Tyrewise website. This holds information about specifications and guidelines, as well as links to research, reports and case studies.

An action plan for crumb rubber in roads prepared for Tyrewise by WSP is also available in these resources.

Aaron Stevens, independent tyre retailer and Bill Prebble, technical specialist, representing the New Zealand experience on an industry panel.

Congratulations on a successful conference in Melbourne. For a company new to roading we absorbed so much useful information and met some really good contacts willing to help kickstart rubber in roads here. We couldn't have asked for a better platform.

NZ processor

Round Trip Tyre and Conveyor Belt Recycling Summit

Co-hosting the Round Trip Summit with Tyre Stewardship Australia was an opportunity for those involved in the New Zealand and cross-Tasman supply chain to identify business opportunities, network, and learn about new technologies and circular economy opportunities. Feedback from participants was highly positive.

88% of the attendees rated their experience as very good, and 11% rated it good.

92% of attendees said they made meaningful connections at the summit, 68% said that they would be pursuing new opportunities as a result of the event, and 78% said they would be sharing knowledge with their organisations and networks.

There was great enthusiasm for collaboration and much potential shown for building on the progress that has already taken place.

NZ materials research professor

Johannes van Heerden, Technical Manager, Fulton Hogan Australia at the New Zealand roading workshop

Networking in the NTRO research lab

Thanks for the invitation to the Tyre Summit in Melbourne, it was a fantastic experience. Kudos to the entire team for excellent organisation.

Take back network

5,360

Locations that could book collections
as at 31 December 2025

The numbers of registrations are stable, many changes are triggered by businesses opening, changing hands, or ceasing operation.

Public collection sites

103

Public Collection Sites
as at 31 December 2025

Two new collection sites began operating during this reporting period - Rotorua Transfer Station in Bay of Plenty and the Te Awamutu Resource Recovery Centre in Waikato. None were de-registered.

Registrations in progress

The following public collection sites are in the process of completing their registration.

- **Gisborne/Wairoa** – Both Council and transfer station operators are in the final stages of potentially signing off three sites for this area.
- **Southland** – This region is looking to trial a site within the next quarter before potentially expanding to other sites within the region,
- **Wellington** – two additional sites
- **Central Otago** – two additional sites
- **Manawatū-Whanganui** – two additional sites

Gaps in the public collection network

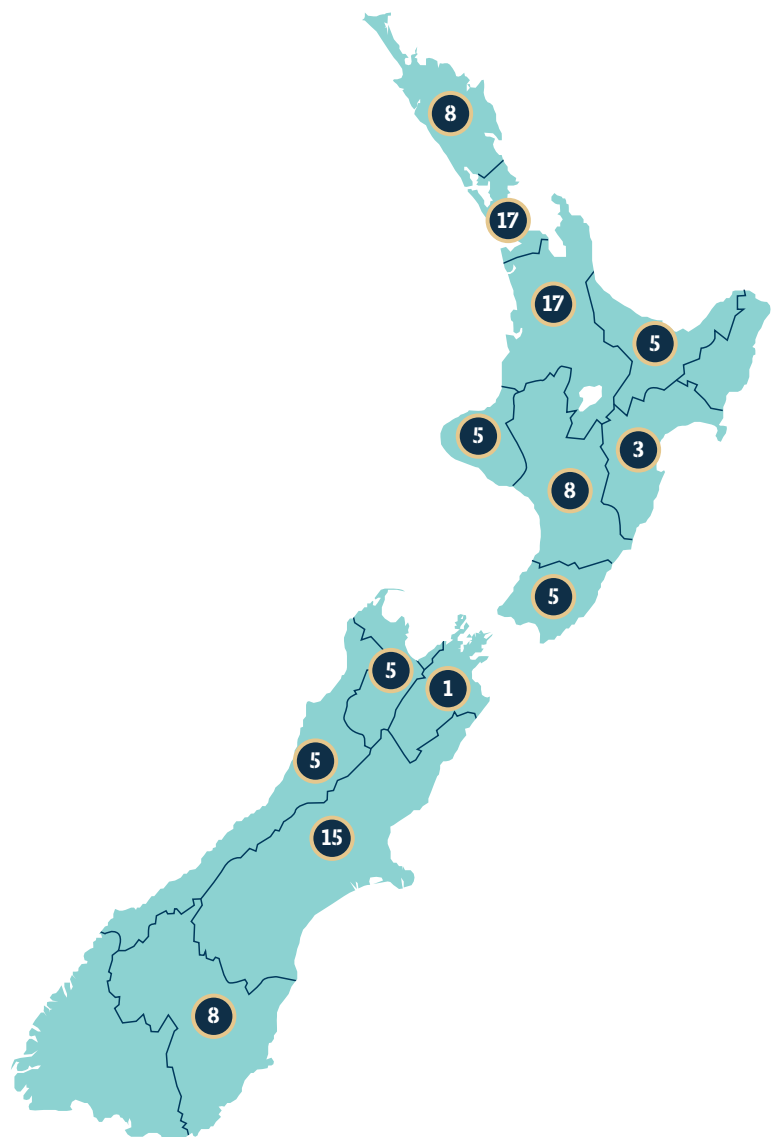

Dunedin does not have a collection site as yet, Field Representatives are seeking possible sites.

Operational observations

Overall, feedback back from collection sites is that the service is well utilised, with the busier sites consistently receiving over 1000 tyres per month.

This equates to thousands of tyres that may have ended up in landfill or fly tipped for councils to manage at a cost to the rate payer.

Some are reporting a reduction in numbers over time and the quieter sites are seeing numbers drop away significantly.

One challenge, particularly at larger sites is that there are often multiple operational layers and different staff operating sites on any given day. Not everyone is always fully informed of how the scheme operates, resulting in miscommunication with the public. This will be addressed by developing more collateral, supported by Field Representatives checking on knowledge and understanding.

Of note this period was three tonnes of end-of-life tyres recovered from Great Barrier Island.

Participant monitoring

>OBJECTIVE 7 OUTCOME 8: ROBUST PERFORMANCE MONITORING

>OBJECTIVE 7 OUTCOME 9: REPORTING ON WMA NON-COMPLIANCE

Site visits

1,156

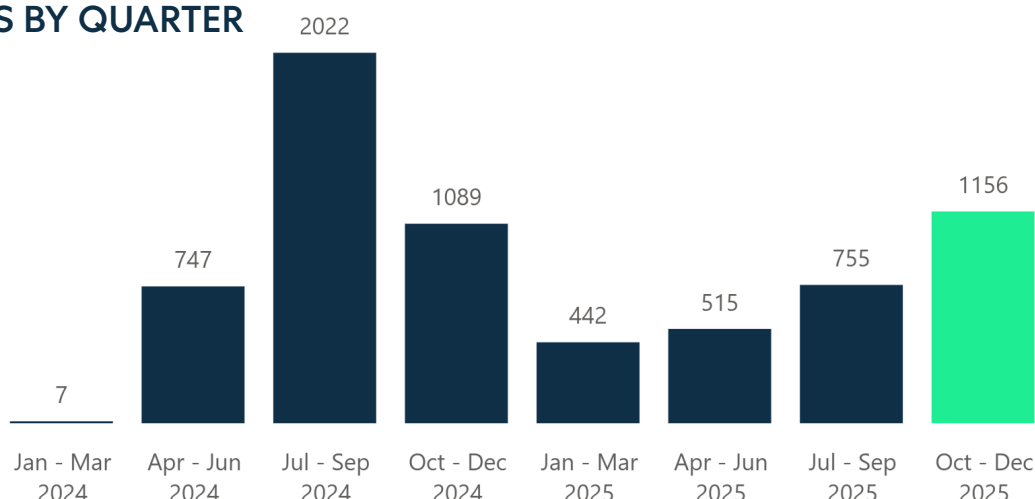

Site visits carried out during this period

The number of visits this reporting period was higher than last period, in part due to increased resourcing. We continue to look for operational efficiencies in planning our visiting schedules, and field team work flows and communication.

The need to balance re-checks for minor issues with timely first time and routine visits across regions will always pose a challenge.

NUMBER OF FIELD VISITS BY QUARTER

Complaints and compliance issues

The number of complaints and compliance issues logged in this period is very low compared to earlier periods. This is partly due to the completion of follow up activities to address stalled registrations.

A new approach to minor compliance issues now sees Field Representatives follow up minor issues with repeat visits to check resolution, rather than immediate escalation to a formal process.

Five matters were logged this period - two compliance issues and three complaints.

There was only one escalation to MfE during the period. This is due to most registration matters being resolved through the work of the Support team, formal letters from the Risk and Performance team, and visits by Field Representatives.

Issues and complaints

Status	Oct -Dec 2025	Jul - Sep 2025	Apr - Jun 2025	Jan - Mar 2025
New complaints and issues	5	24	54	52
Open at end of the period	9	14	14	15
Closed during period	11	28	52	40
Escalated to MfE	1	8	26	29
Resolved by MfE	3	12	37	12
Escalated, open at end of period	0	2	8	17

Awareness, education, satisfaction and service

>OBJECTIVE 6 OUTCOME 7: USER SATISFACTION AND AWARENESS

Awareness and educations campaigns

Our general awareness and education media campaign continued during this period.

Based on insights from tyre consumer and participant research some of our budget was allocated to a social media campaign showcasing end-use case studies. The campaign delivered strong engagement, with 4,187 link clicks, over 140,000 page engagements.

To take advantage of Kiwis using their summer break to have a clean-out we also allocated some budget to a Summer Tyre Drive campaign. Starting during December, this campaign was targeted by region, linking through to a list of public collection sites in that region.

To the end of December the campaign had amassed 3,042 link clicks, and over 92,000 page engagements.

Educational content

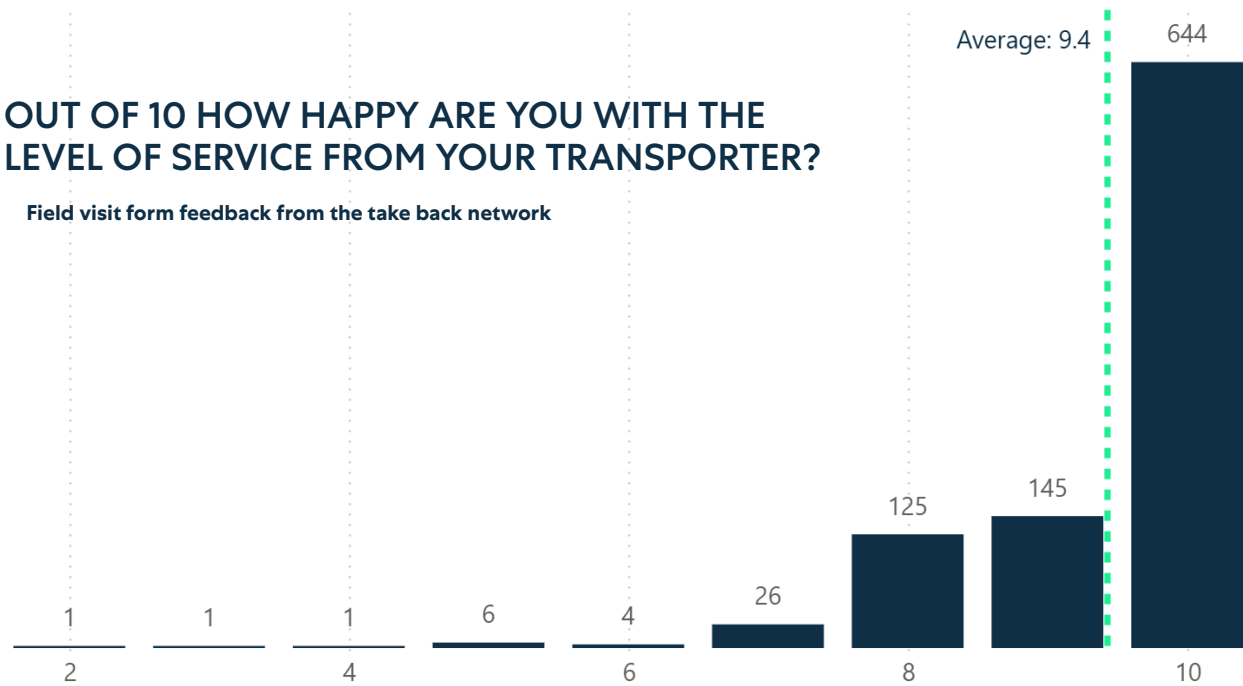

Educational content from video interviews by our media partner at the Round Trip Summit were an addition to our social media presence and direct communications during this period. They provided

insight and education into a range of tyre recycling topics, and had a notably high engagement rate in our December newsletter update.

Transporter Satisfaction

Take back network satisfaction with transporters remains high – an average of 9.4 out of 10, based on a questionnaire during field visits. This reflects strong service by transporters in a competitive market, where partners can switch based on the service they receive.

• News media mentions	28
• Email updates	4
• Service Desk tickets received	2,093
• Service desk tickets resolved	2,169
• Resolved within target time	81.4%
• 0800 calls received	1,186

Systems performance

>OBJECTIVE 1, TRANSPARENT AND ACCURATE REPORTING OF TYRE MOVEMENTS AND FINANCIAL TRANSACTIONS

8,858

Active Tyrewise app users
as at 31 December 2025

Improvements to the Tyrewise app

Approximately 30 changes were made to the app over this reporting period, a combination of improvements, new features or bug fixes.

Two major updates were made that improve the functionality for users.

- Processors can now see a summary of loads delivered to their site(s).
- Organisations that have both generator and transporter functions no longer need separate log in credentials for their different organisation functions.

Payments system

The payments system is the financial services provision to record all outgoing and incoming payments for ASNZ and Tyrewise, and measures payment accuracy of banking batches prepared for payments (correct bank accounts, values and timing). 100% of payments made were accurate.

During the reporting period there were a number of debit adjustments made to the claims to correct overstatement of tonnage/values prior to reading the payments system.

Improvements to the payments system

A range of improvements have been made this quarter, including transitioning most suppliers to payment terms of 20th of the month following. Improvements were also made to productivity, and fraud detection improvements to the claims processing system.

Impact of amendment to regulation

An amendment to the Waste Minimisation (Tyres) Regulations 2023 came into force on 11 December 2025.

The amendment excludes from fee requirements all tyres that are exported while attached to or intended for use on, a motor vehicle or an aircraft.

The change narrowed the exemption in regulation 11(6), requiring that in order to be exempt from the fee for tyres attached to a motor vehicle, a person must (if the vehicle was imported) produce evidence that the tyre is not replacing a tyre that does not comply with land transport rules or regulations regarding vehicle standards and that was attached to the vehicle on importation.

The regulations now enable a scheme manager to collect an alternative identification number if a vehicle does not have a vehicle identification number or chassis number and clarify that the fee paid on a tyre attached to an imported aircraft is the same as the fee for a loose imported tyre for an aircraft

These amendments have enabled efficiencies for the scheme manager as they collect self-declaration data; and has also offered those that may have been legitimately unable to claim a refund for the Tyre Stewardship Fee the ability to do so.

In addition, it closes the gap with “winter or snow” tyres which were coming into New Zealand via imported vehicles and entering Tyrewise without having paid the Tyre Stewardship Fee.

Governance

Alongside the Trustees of ASNZ, there are additional steering, advisory and working groups that provide recommendations to the trustees about scheme performance, or work specifically on technical issues. This is an update on two of those groups.

Regulated Product Stewardship Scheme Steering Group

The group met on 2 December 2025. The Scheme Manager reported the successful completion of Milestone 4, noting strong operational performance, increased Foreign End Market Verification activity, and positive indications from recent Regulator-initiated audits, which may reduce future audit frequency.

The Group endorsed the establishment of a working group to address diversion of retread-suitable casings and discussed tariff implications, anti-competitive risk management, and appropriate use of TSF funding.

The Annual Report was commended for demonstrating both the maturity and international recognition of the scheme.

Sector updates highlighted the completion of the transport tender process, concerns emerging from external microplastics research forums, and the need to actively manage perceptions around recycled rubber use in infrastructure.

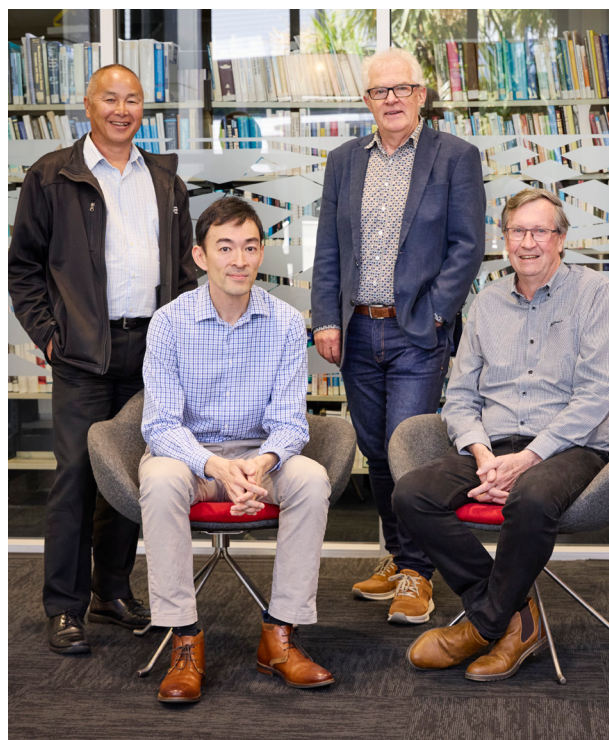

Market development discussions focused on the successful Round Trip Summit, upcoming international engagement, and significant risks associated with an imminent rubber-in-roads trial which falls outside the NZTA-aligned R&D pathway.

The Regulator provided updates on TSF refund provisions, tariff code work, Operational Delivery Plan #2 progress, and forthcoming legislative changes.

The Group also reviewed the Tyrewise Fund's first grant round, noted stable financial audit progress, and agreed on actions to confirm the 2026 meeting schedule and integrate market development as a standing agenda item.

Casing Diversion Working Group

This group has been convened by ASNZ to address the declining availability of re-treadable casings entering the domestic retread industry since the introduction of Tyrewise. This poses direct risks to our circular economy objectives. Reduced access to viable casings may lead to increased imports of lower-quality tyres, higher carbon emissions, and erosion of local retread capability.

Members of the Regulated Product Stewardship Steering Group.

Left to right: Dom Kalasih Chair, Transporters Technical Advisory Group, **Jeremy Wu** Chair, Products and End Markets Technical Advisory Group, **Vaughan Renner** Chair, Regulated Product Stewardship Steering Group, **Bill Prebble** Chair, Tyre Importers Technical Advisory Group

The Terms of Reference outline the group's mandate to assess system-wide barriers, evaluate the feasibility and cost implications of diverting suitable casings away from end-of-life processing, and develop evidence-based recommendations-including consideration of any Tyre Stewardship Fee (TSF) adjustments-to support a viable, resilient retread supply chain.

The group's work will commence in Milestone 5, and bring together representatives from across the tyre value chain, including importers, retreaders, retailers, fleet operators, and Tyrewise.

Its work programme spans four workshops from February to May 2026, supported by the RPS Scheme Manager, with a final report due by June 2026 for ASNZ and subsequent regulatory consideration.

Finance, audit and risk committee report

Sturrock Saunders, Chair

The Finance, Audit and Risk committee had two meetings during this period, and noted the commencement of audit 3 by BDO. There are no outstanding issues from financial audit 1.

During this period the Committee supported the development of the inaugural Tyrewise annual report.

The Fraud (including social engineering) Policy was reviewed and recommended to the ASNZ Board. The purpose and scope of this policy is “Auto Stewardship New Zealand (ASNZ), an incorporated charitable trust, is committed to ethical conduct, accountability, and responsible stewardship.

As ASNZ holds significant public funds and has a high level of public accountability, the Trustees, and contractors of ASNZ are committed to safeguarding the organisations’ reputation and resources against fraud and potential social engineering attacks on all data and assets.”

The Risk deep dive topic for this period was the Tyrewise App. The Committee were provided a comprehensive presentation from the Scheme Manager on how the app is utilised within the Tyrewise scheme and the value it provides including around fraud detection / quality scheme data and verification of loads.

I would like to acknowledge the contributions of Committee members, the 3R Scheme Management team, Nexia and the ASNZ Trustees for their dedicated support and continued commitment to the integrity and success of the Tyrewise Scheme.

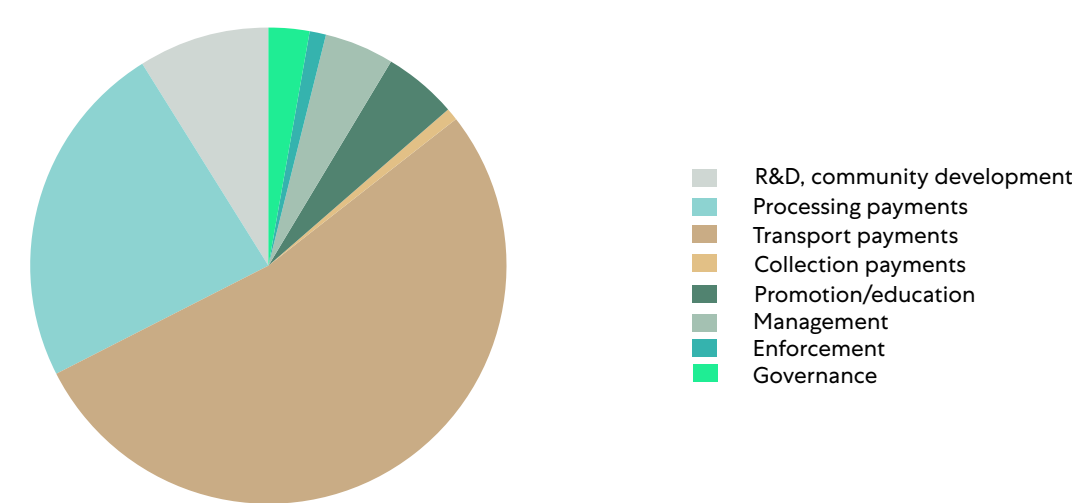

Financial update

>OBJECTIVE 4: ACCURATE BUDGET ESTIMATION, SPENDING AND FORECASTING

Spending forecasts vs actual operational to date

Breakdown of projected costs of the scheme per passenger tyre equivalent (EPU) for year 1, as established in July 2023. Forecast vs actual spend can be found on page 50.

Baseline breakdown

Key	Covers
Governance (PSO)	Trustees, Committees, Steering Groups, Accountancy, Legal
Enforcement (regulator)	Regulation enforcement assumed costs
Scheme Delivery (Management)	Monitoring, sites audits, managing take back network, Tyrewise App
Promotion/education	Point of sale, website, education, marketing/communication
Collection Site Payments	Public sites that receive non-commercial drop offs
Transport Payments	Trucking companies that pick-up tyres and take them to processors
Processing & End Market Payments	Incentives paid for TDF/TDF for eligible domestic sales
R&D & Community Development	Grants / Contestable Funds (from April 2025)
Foreign End Market Verification (new)	Tracking tyres exported from NZ (audit system)
Retained by Regulator (future funds)	Tyre stewardship fee value less expenses paid year to date

Audit activity

Audit activity this period

BDO's six monthly financial audit concluded that in, in all material respects, the expenses incurred by the Scheme comply with the requirements of the Scheme Delivery

Deed and the Operational Delivery Plan for the period 1 March 2025 to 31 August 2025.

Schedule of audits

Ref	Audit Type	Scope	Performed By	Cycle	Period Covering	Status
002	PSO	Cyber Audit Scheme Manager	Crowe Australasia	On demand	01 Sept to 31 March 2025	Complete
003	PSO	Audited PSO Financial Statements	Crowe Australasia	Annual	01 Sept to 31 March 2025	Complete
006	Regulator	Financial Audit PSO & Scheme Manager	BDO Wellington Audit Ltd	6 Monthly	1 Sept 2024 to 28 Feb 2025	Complete
007	Regulator	Operational Audit PSO, Scheme Manager, Retailers, Transporters, Processors, Manufacturers	BDO Wellington Audit Ltd	6-monthly	1 Sept to 28 Feb 2025	Complete
010	Regulator	Financial Audit PSO & Scheme Manager	BDO Wellington Audit Ltd	6-monthly	1 March 2025 to 31 August 2025	Completed
011	Regulator	Operational Audit PSO, Scheme Manager & Retailers, Transporters, Processors & Manufacturers	BDO Wellington Audit Ltd	6-monthly	1 March 2025 to 31 August 2025	In progress

Objective 1

Transparent and accurate reporting of tyre movements and financial transactions (waste tracking and payment systems).

During the first year of the Tyrewise Scheme, the Scheme Manager will effectively utilise the waste tracking and payment system to:

- a. Provide a high-quality service to users.
- b. Record information about mass balances including materials flow from collection to reuse.
- c. Transparently provide this information to the Ministry and the Public (in aggregated form if required to protect commercially sensitive information).

From 1 September 2024, the Tyrewise Scheme software (waste tracking tool) and payments system will provide information related to the Expected Scheme Effects (see Gazette Notice for General Guidelines for Product Stewardship Schemes for Priority Products Notice 2020 [Gazette Notice 2020]). Relevant information includes Fee usage by the Scheme for incentive payments and other operational payments made to registered participants for ELT collection, transportation, and processing services; volumes of ELTs diverted from landfill for end-use higher up the waste hierarchy; availability/capacity of collection sites across New Zealand, including by location; and clear provision of information about the Scheme, use of funding, and how to access collection sites. More details on these Effects are outlined below in Objectives 2-7. Effects are outlined in Outcomes 1-7, specifically Outcome 1.

REPORTING REQUIREMENTS

- Tyrewise shall report all relevant (non-confidential) information to objectives on their website in a form of their choice as an externally facing public update.
- The Ministry will have a series of reports created for them that they can run at any time to deliver this information in real time.
- Additional information to the 'live' information available via the 'Dashboard' will be reported to the Ministry through quarterly and annual reporting, which will be kept confidential by the Ministry.

OUTCOME #1 FOR OBJECTIVE 1

Effective management of the Waste Tracking System (Tool) and MYOB Advanced (registered parties,

Payments System) to ensure uninterrupted, reliable, transparent, and accurate tracking of:

- the use of the Fee by registered parties eligible to receive payments, and
- Mass balances of tyres collected, transported, and processed through the Scheme.

Effective management of the Xero (PSO) payments system) to ensure uninterrupted, reliable, transparent, and accurate tracking of the use of the Fee by non-registered parties eligible to receive payment (such as management and governance costs)

OBJECTIVE 1 TARGETS FOR THIS PERIOD

General targets

- Continuous improvements and updates to the Tools
- Tool accurately and consistently recording materials flow (mass balances) by registered participants.
- Payment Systems accurately and consistently recording Fee remitted to contracted registered participants and service providers.
- Quarterly reporting of data collected from the Waste Tracking System Tool.

Specific targets

- Payment System(s) accurately recording 99% of all payments.

Objective 2 (a)

Transportation volumes

From the 1 September 2024 (during the first 7 months of operating the Tyrewise Scheme), registered tyre transporters will transport more than 13,000 tonnes of ELTs via established registered collection network (e.g., tyre retailers, transfer sites and generators) and/or new registered collection services (e.g., community collection centres). Registered tyre transporters will deliver ELTs to registered tyre processors, examples of which include Waste Management's tyre shredder in Auckland, Treadlite shredder in Cambridge and Tyre Collection Services in Christchurch).

Specific targets

- Additional 5,000 tonnes of tyres collected and transported to verified domestic end use (28,000 tonnes total).

The financial Model indicated over 12 month operational period 56,000 tonnes of tyres could be available to Tyrewise. A total of 35,500 tonnes could be transported to verified domestic end use in total, the balance exported.

REPORTING REQUIREMENTS

- Data on the scheme's tyre transportation services and financial transactions for Fee payments made to tyre transporters will be provided to the Ministry through the waste tracking tool Dashboard, quarterly and annual reporting.
- Data on the performance of transportation services (e.g., availability of transportation services; North Island vs South Island, and transportation networks), will be shared with the Ministry through the waste tracking system, quarterly and annual reporting.

OUTCOME #2 (A) FOR OBJECTIVE 2 (A)

- Effective nationwide transportation of tyres to established and new domestic processing end-uses through:
- Contracts with existing transportation services to manage the current demand for ELTs.
- Contracts with new or existing transportation services to manage increases in demand for ELTs as required.

OBJECTIVE 2 (A) TARGETS FOR THIS PERIOD

General targets

- Report on result of Tender for Transport effective from 1 December 2025 to 30 September 2027 (alignment with Processing SLA's)

Objective 2 (b)

Take-back service (tyre collection network)

From the 1 September 2024 (during the first 7 months of operating the Tyrewise Scheme):

- Public collection services will receive tyres from consumers at up to 5 tyres per visit (typically transfer stations and community collection sites).
- Established services (e.g. tyre retailers, garages, and generators) will receive tyres from their own activities, including retaining end-of-life tyres from their customers.

This is to provide a free and accessible take-back service. All tyres received by sites providing this service will enter the Scheme via registered transporters (as specified in Objective 2a). The Tyrewise Scheme will quantify the number of tyres received at collection sites for the purposes of:

- Future market analysis (Objective 5)
- Identifying and reconciling tyre leakage downstream of collection (refer to Risks and Mitigations).

REPORTING REQUIREMENTS

- Data on the performance of collection operations (e.g., number of collection sites; North Island vs South Island), will be shared with the Ministry through the waste tracking system, quarterly and annual reporting, including geographical location/distribution of tyres collected.

OUTCOME #2 (B) FOR OBJECTIVE 2 (B)

Free and accessible collection of tyres at registered collection sites (including generators, retailers, transfer stations and community networks) through:

- Contracts with existing collection sites (i.e., retailers) for ELT collection nationwide.
- Contracts with new collection sites (i.e., community transfer stations) ELT collection nationwide.

OBJECTIVE 2 (B) TARGETS FOR THIS PERIOD

General targets

- Continue identifying gaps in New Zealand's waste regulated tyre public collection site infrastructure.
- Contracts with public collection sites are established and maintained for actual volume of waste regulated tyres collected over the quarterly period.
- Updated list of contracted public collection sites provided to the Ministry.
- Measure waste regulated tyre volumes collected for future market analysis and identifying waste regulated tyre leakage from scheme.
- Quarterly reporting of public collection sites and volumes.

Specific targets

N/A

Objective 3

Tyre processing volumes

From the 1 September 2024 (during the first 7 months of operating the Tyrewise Scheme), Fee incentive payments will be made to registered tyre processors to support the processing of more than 9,500 tonnes of tyres into tyre-derived products (TDP) or tyre-derived fuel (TDF), and a further 9,000 tonnes of end use/manufactured product derived from TDP/TDF feedstock.

REPORTING REQUIREMENTS

- Evidence of eligible sale (including verified foreign market) of Tyre Derived Product or Tyre Derived Fuel used, will be provided to the Ministry through the waste tracking tool Dashboard and quarterly reporting.
- Data on the number of registered participants receiving incentive payments, the total amount of incentive payments made to registered participants, and an assessment of the effectiveness of the incentive payments on the different processing outcomes (low value vs high value) will be reported to the Ministry through the waste tracking tool Dashboard, quarterly and annual reporting.

OUTCOME #3 FOR OBJECTIVE 3

Nationwide processing services delivered for end-of-life tyres (ELT) by registered scheme processors through:

- established processing services, and
- new processing services that have come online during each quarter.

Incentive payments are dispersed to contracted participants for tyre processing upon evidence of eligible sale, including but not limited to:

- Processed from Feedstock (TDP1, TDP2, TDP3, TDP4)
- Feedstock/Tyre Derived Aggregate (TDF1, TDF1e, TW2, TW6)

OUTCOME #4 FOR OBJECTIVE 3

End Market use of Tyre Derived Product (TDP) used in a secondary process, produced as a result of processing of New Zealand ELT tyres and sold to a verified end market:

- new end market uses by volume; and
- new verified end markets that have come online during that quarter.

- Tyre Derived Fuel (TDF), sold to registered end users (e.g., Golden Bay Cement's kiln in Whangārei).

Incentive payments are dispersed to registered processors who sell their products to verified end users (manufacturers) for further use in a process, or to verified end users who can verify what % of the TDP/TDF has been included in their manufactured product. Including but not limited to:

- Processed from Feedstock (TDP1, TDP2, TDP3, TDP4)
- Feedstock/Tyre Derived Aggregate (TDF1, TDF1e, TDF2, TDP6)

OBJECTIVE 3 TARGETS FOR THIS PERIOD

General targets outcome 3

- Continue identifying gaps in waste regulated tyre processing capacity to ensure that supply of processed TDF/TDP can meet domestic demand.
- Provide evidence of new contracts for this quarter with registered processors for processing services. Copies are provided to the Ministry.
- Quarterly reporting of waste regulated tyre processing volumes.

Specific targets outcome 3:

- Additional 4,500 tonnes of waste regulated tyres processed (23,000 tonnes total).

General targets outcome 4

- Contracts (or similar record of agreement of eligible sale between registered processors and registered manufacturers are established and maintained where that manufacturer applies for an incentive payment. Copies provided to the Ministry for any new agreements in the quarter.
- For exported product for use in a secondary process, where the registered processor or transporter exports their product, provide evidence of exporting to a Verified Foreign End Market
- Quarterly reporting of end market volumes sold to registered Manufacturers

Specific targets outcome 4

- Sale of 1,000 tonnes of TDF4 or TDP4 used in a secondary process. Total 12,000 tonnes

Objective 4

Accurate budget estimation, spending and forecasting

Costs of recoverable activities under the Tyrewise Scheme per EPU cannot exceed the Tyre Stewardship Fee set at \$6.65/EPU. By the end of the first year of the Tyrewise scheme, the PSO will report on budget spends to support annual operational costs and develop future annual budgets demonstrating how and where the Fee will be spent in successive years of the scheme. This will support the mission statement of Tyrewise “Improving the value for end-of-life tyres in cost effective and environmentally sound ways” Future budgets shall be formally captured in an annual Variation to be developed towards the end of Year 1.

estimates are justified.

Specific targets outcome 5(a)

- N/A

General targets outcome 5(b)

- Completed by M3, summary of applications received, assessed, and approved.

Specific Targets (Outcome 5 (b) for Objective 4

N/A

REPORTING REQUIREMENTS

Information on transactions made for operational payments (i.e., service fees and incentive payments), and internal costs/transactions (i.e., receipt of funds from the Crown to the PSO for payment of contractor fees and overheads) will be provided to the Ministry through the Tyrewise waste tracking and payments system Dashboard, PSO accounting system and quarterly and annual reporting.

OUTCOME #5(A) FOR OBJECTIVE 4

- Accurate forecasting spends of the Fee by PSO towards quarterly operational costs.
- Actual Year 1 budget information to be used to develop budgets for Year 2, in particular spending forecasts for ongoing operational costs, future funding towards R&D and national infrastructure.
- Year 3 budget will be developed using actual budget data from Years 1 and 2, and so on for Years 4-7.

OUTCOME #5(B) FOR OBJECTIVE 4

- Develop an assessment process for applications from parties seeking funding from the Fee.

OBJECTIVE 4 TARGETS FOR THIS PERIOD

General targets outcome 5(a)

- All budget spending aligns with true and reasonable financing statements.
- All budget decreases (underspend) and/or increases (overspend) $\pm 15\%$ relative to budget

Objective 5

Market growth and investment strategy

During the first year of the Tyrewise Scheme, ASNZ will work towards the future development (i.e., Years 2+) of a Market Growth and Investment Strategy to ensure that any investments improve upon the national tyre management network. It will detail the proposed expansion of Aotearoa New Zealand's end-of-life tyre market from the status quo to a robust national network and domestic economy. Year 1 activities include:

- Measurement of baselines to track progress from the status quo.
- All assessments and reports to the Ministry to address how the Recipient plans to use the information collected by the Scheme to continue to grow New Zealand's ELT market, so as to be formally captured in the Market Growth and Investment Strategy in future years of the Scheme's operations.
- ASNZ will receive applications and proposals for market development grants such as R&D grants, community or infrastructure investments, though no grants will be offered in the first year and future grants will be subject to availability of funds collected from the Fee.

REPORTING REQUIREMENTS

- Updates on the measurement of baselines and consideration of the Market Growth and Investment Strategy will be provided to the Ministry through the waste tracking tool Dashboard, quarterly and annual reporting.
- Further development and implementation of the Market Growth and Investment Strategy will feature in future years (Year 1 onwards) Milestone, Outcomes, and Detailed Budgets, as it relates to the Expected Scheme Effects in the Guidelines.

OUTCOME #6 FOR OBJECTIVE 5

Begin developing a Market Growth and Investment Strategy that sets out the expansion of New Zealand's ELT market from what is already established (e.g., status quo) to a robust national network.

New business ventures, small and large, will participate in the scheme to improve its capacity, capability, and geographical presence (including new operations established in the South Island).

OBJECTIVE 5 TARGETS FOR THIS

PERIOD

General targets

- Report on any material changes to the Market Growth and Investment Strategy.
- Measure potential quarterly growth in the development of the domestic market from the recorded baselines ('status quo')

Specific targets

N/A

Objective 6

Participant awareness / satisfaction

By the end of the first year of the Tyrewise Scheme, a survey (intended to be conducted annually) will be conducted across all registered participants and stakeholders to gauge satisfaction of the services received from or provided to the Tyrewise Scheme (e.g., the waste tracking system, incentive payments). This survey(s) should also clarify the capabilities, sentiment, and make-up of the regulated community.

It is acknowledged that successful development of the Tyrewise Scheme will require financial investment by registered participants and stakeholders which investment will require continuity and certainty of the Scheme.

REPORTING REQUIREMENTS

By the end of the first year of the Tyrewise Scheme initial survey conducted which will cover 6 months of operations (from 1 September 2024 to 28 February 2024).

This will be used to establish a baseline for each community of registered participants.

Details concerning survey(s) will be summarised in an Annual Report to the Ministry, and may include participant performance to overcome challenges, satisfaction of the Scheme, and the range of services provided.

OUTCOME #7 FOR OBJECTIVE 6

Measure user satisfaction and awareness of the Scheme. This will clarify the capabilities, sentiment, and make-up of the regulated community. Users include:

- Registered participants by type/services provided, (i.e., collection, transportation).
- Back-end users of the waste tracking and financial systems, or any other system (i.e., TW staff, software developers, contractors, and administration).

Measurements of user satisfaction and awareness of the scheme include but are not limited to:

- Scheme guidelines
- Software and systems (i.e., tracking, and financial system)
- Technical support and call centre
- Contracts/remuneration (i.e., incentive payments rate and service fees)
- Ability to meet obligations under the Scheme and

other standards (i.e. NES)

OBJECTIVE 6 TARGETS FOR THIS PERIOD

General targets

Measure baselines for:.

Over a 12 month period 70% of all registered participants have opportunity to participate in a survey.

For the scheduled group for this Milestone, measure annual baseline understanding of Scheme guidelines and sentiment, usage of systems, i.e., online portal/ application, tracking and financial systems and users' satisfaction with the waste tracking tool.

Scheduled groups are:

- Public awareness (users of the scheme)
- Registered Scheme Participants (signed Code of Participation)
- Contracted Registered Participants (Collection sites, Transporters, Processors and Manufacturers)
- Stakeholders who use the waste tracking and financial systems.

Specific targets outcome 7

Specific targets:

- Quarterly survey/feedback completed by 40% of scheduled group

Objective 7

Site assessments and performance monitoring

During the first year of the Tyrewise Scheme, the Recipient will undertake site assessments of all contracted RPS Scheme Participants (e.g. tyre retailers, collection sites, tyre transporters, and tyre processors). Site assessments will determine whether the participant is meeting the expectations within the Code of Practice to participate in the Tyrewise Scheme and performance monitoring against any contractual agreements entered by participants with the PSO (or its agent) to receive payments from the Tyrewise Scheme.

All instances of importers or tyre retailers non-compliance of sale of regulated tyres in accordance with the scheme observed or reported to the Scheme Manager will be escalated to the Ministry for appropriate action under the Waste Minimisation Act 2008.

- Instances of observed breaches of the Health and Safety at Work Act and other non-MfE Acts and Regulations should be referred to the relevant Government or local authorities.
- Instances of not operating within the intent of the Code of Practice or other relevant agreements relating to the operation of the scheme will be managed in accordance with the policies and procedures of the scheme.

REPORTING REQUIREMENTS

- During the first six months of the Tyrewise Scheme (1 March 2024 to 31 August 2024), the performance monitoring processes will be firmed up as they are put in place in readiness for operational launch (1 September 2024).
- Scheme Participant assessment findings will be summarised by the Recipient for the Ministry on a quarterly basis as part of the required Milestone Reporting.
- Auto Stewardship New Zealand will notify the Ministry of all instances of potential non-compliance of sale of a regulated tyre in accordance with the scheme under the WMA within 10 days of the non-compliance being detected for the Ministry to investigate further.

OUTCOME #8 FOR OBJECTIVE 7

Establish robust performance monitoring (non-WMA) processes for liable parties and registered participants, and monitor the performance of these processes, including any escalation action from the Scheme Manager to the PSO taken for:

- Liable Parties and Registered participants by type (i.e., what are their performance requirements with the scheme that were breached)
- Mitigation of key risks for the operational delivery (as per risks section)

Note: an example of a 'performance monitoring process' that mitigates key risks might be requiring proof of purchase for tyres collected at the same point of sale (if a retail collection point) to ensure tyre origin or limiting the quantity of tyres accepted at collection sites. Evidence by a public collection site that they are not allowing access to end-of-life tyres to be diverted for re-use.

OUTCOME #9 FOR OBJECTIVE 7

Establish reporting process for WMA non-compliance where liable parties appear to not be selling regulated tyres in accordance with the regulated scheme.

Escalation to the Ministry of any instances where potential non-compliance with the WMA

The Ministry may pursue further investigation (audits) and enforcement against offenders using the powers available to the Secretary under ss 87, 88 of the WMA.

OBJECTIVE 7 TARGETS FOR THIS PERIOD

General targets outcome 8 for objective 7

- for each type of liable party and contracted registered participant. report on what type of performance monitoring has been undertaken for the period (Code of Participation or Service Level Agreements)
- Maintain robust scheme performance monitoring processes to mitigate risks i.e.
- processes updated as required and reviewed every 18 – 24 months.

Specific targets outcome 8 for objective 7

- Evidence of any random and/or annual field assessments (non-WMA) undertaken in quarter

General targets outcome #9 for objective 7

- MfE notified of any anomalies/non-compliance under the WMA, requiring follow-up audits and potential enforcement actions taken by the Ministry.

Specific targets outcome #9 for objective 7

N/A

Objective 8

Scheme delivery audits by the Ministry for the Environment

During the first year of the Tyrewise Scheme, the Ministry will undertake 6-monthly audits of the Scheme to determine whether:

- i. the Recipient and the Scheme Manager are each complying with the terms and conditions of the Deed, that Milestones have been delivered successfully, and the Fee has been used as intended.
- ii. the Recipient and the Scheme Manager are each complying with their responsibilities as Operators of the Scheme under the Waste Minimisation (Tyres) Regulations 2023.
- iii. the RPS Scheme Participants are complying with the Waste Minimisation (Tyres) Regulations 2023.

for operational launch 1 September 2024.

- The regulators CME team will notify the PSO of any upcoming audits and specific information requirements.
- Details concerning these audits will be summarised in an Annual Report to the Ministry.

OBJECTIVE 8 TARGETS FOR THIS PERIOD

- BDO report findings M5 (if any)
- Details of findings M4 addressed (if any)

REPORTING REQUIREMENTS

- During the first six months of the Tyrewise Scheme from 1 March 2024 to 31 August 2024, the regulators CME compliance processes in draft will be firmed up as they are put in place in readiness

Registered partners

by region

Registered partners are liable parties and participants which have had a field or phone visit from our field or service delivery teams, and provided their signed code of participation as at 31 December 2025. All registered partners are listed on www.tyrewise.co.nz

This data is extracted from the PSO Xero Accounting System and is represented in Profit & Loss Statement format.

The amounts expressed as “actual” in the P&L are based on date of payment made and differ in value to actual operational payments used to report on within the report which are based on job completion date, not date of payment.

Note some accruals have been released that are now reflected in the actuals
